

Straumann® Edentulous Solutions
Many reasons to smile.

For every edentulous patient Straumann offers a solution

Treating edentulous patients often remains a challenge when you look at the expectations and clinical limitations involved. Your best option here is a partner who will help you find the right solution.

REMOVABLE			
			
Retentive Anchor	Novaloc®	Bar with pre-fabricated parts	Telescopic construction
			
Time-proven solution based on easy to handle ball-and-socket principle	Hybrid denture system available in 2 versions: straight and angled abutments to overcome high implant angulations	Allows bar constructions with the help of pre-fabricated bar copings and bar elements	Customizable, removable solution that feels as stable as a fixed restoration and is particularly easy to clean

STRAIGHTFORWARD

FIXED RESTORATIONS

Straumann® Pro Arch BL **Straumann® Pro Arch TL** **Fixed Bridge**

Allows for immediate temporary restorations: Combination of Straumann® BLT Implant for enhanced primary stability with Screw-retained Abutment portfolio to overcome implant angulations

Full-arch restoration with the shortest screw-type implant on the market: SPS 4 mm

Fixed on the implants with screws and can be removed for professional cleaning in the dental office
